

# Alternative Appointment Request Decision Tree

How to use the Alternative Appointment Request (AAR) decision tree:

1. Navigate from 'Start' and follow the white arrow to the first box
2. Read the first box and answer the question. If yes, follow the left arrow and progress to the next white box. If no, follow the right arrow and progress to the next white box.
3. Continue this process until you reach an end box, which will notify you if an AAR is needed, or an AAR is not needed.
