Hiring Proposals are created to connect an identified candidate to an open position needing to be filled. Once an applicant has been placed in the ‘Approved Recommend for Hire’ workflow state by OEO, a Hiring Proposal can be initiated. Creating the Hiring Proposal and sending it through the approval process will initiate the background check. All background checks must be completed or waived by HR prior to sending out a formal Offer Letter.

**Important note for Hiring Authorities** - You must be listed as the Hiring Authority on both the Position Description and Posting.

Below are the steps in the initiation, background check, review and approval of the Hiring Proposal.

The steps in the following slides explain how to initiate/complete all requirements for the Hiring Proposal.
Note: Departments wishing to hire Foreign Nationals must first contact Business and Financial Services to obtain a Payroll Control Number (PCN) in order to complete the Hiring Proposal.

Contact: Business and Financial Services, Foreign Tax Office

bfs_foreigntax@Mail.Colostate.edu

Once the PCN has been assigned, enter the number in the “Please Provide Any Background check Detail” field in the Hiring Information Section under the Hiring Proposal Tab.
Initiating a Hiring Proposal

1. Select the Applicant Tracking module by clicking the three dots in the top-left corner of the screen.

2. Select Hiring Authority from the User Group drop-down menu.
1. Click on Postings from the menu across the top then select Faculty from the drop-down menu.
1. Locate the posting for which you wish to start the hiring proposal and click on the Working Title.

Shortcut: Hover over Actions and select View Applicants to be taken directly to the Applicants tab within the posting.

Note: You can search for the posting by entering the Posting Number into the main search bar.
1. If you clicked on the Working Title, you will be taken to the Summary tab of the posting. Click on the Applicants tab.
1. From the Applicants tab, locate the individual(s) in the workflow state ‘Approved Recommend for Hire’ and click on their first name.

Note: If you are hiring multiple individuals out of one posting, this process will need to be repeated for each candidate.
**NOTE**
If the search was run as either an ‘Assistant/Associate Professor’ or ‘Associate/Full Professor’, please ensure that the position description used to create the posting has been modified to match the exact level of the incumbent before starting the Hiring Proposal. If you try to seat an Associate Professor into an Assistant level position description, the Hiring Proposal will need to be canceled and the position will need to be modified.

1. Once in the job application, click on the Start AP Hiring Proposal button in the top-right corner.
Connecting the Hiring Proposal to Position Description

1. The position description that was used to create the posting will automatically be selected from the list below. Confirm that the correct position is selected, then click one of the Select Position Description buttons to create the hiring proposal.

Note: If the correct position description is not showing up, you may not be listed as the Hiring Authority on the approved position description. Please Contact HR to have your name added to the position description.

Note: If you are performing multiple hires out of one posting, each candidate will need to 'be seated' into their OWN position description. Selecting the same position descriptions, or one with an individual already seated in it, will cause the system to override the current occupant and replace them with the new individual. Each employee must have their own approved position description and unique position number.
Note: Be sure to fill in all the required fields on the Hiring Proposal page. (i.e. Sex, Work State, Work Hours, Background Check etc.)

Note: CSU is required to select and report in aggregate, the sex of all hires made at the University as part of our obligation as a federal contractor. The binary selection of Male and Female is defined by the federal government and is required for our reporting.

1. Ensure that you select the sex of the candidate. If the candidate decided to self disclose their sex when applying, their selection will be directly above the required Hiring Proposal Specific Sex drop-down menu. Be sure to match this. If they didn’t self disclose, use your best guess estimate and select a sex.
Note: If the hired individual will be working for CSU outside of Colorado, the following fields are required. If they will be working within Colorado, select No in the top field then skip the rest of the section.

1. Select either Yes or No from the Will the individual in this position be working for CSU outside of Colorado drop-down field.
2. If Yes is selected from the top field, enter the address from where the individual will be working.
3. If Yes is selected from the top field, enter the name of the city from which the individual will be working.
4. If Yes is selected from the top field, in the Work State drop-down field, select the state where the employee will reside while working at CSU.
5. If Yes is selected from the top field, enter the work state zip code.
1. Work Hours/Week will pull through from the position description. Please remove any ranges and only include the actual hours to be worked per-week.

Note: If you are hiring a non-tenure-track position, please ensure that the appropriate NTT Faculty Appt Type is selected from this drop-down menu. The selection from this drop-down menu should correspond with the positions Employment Category as shown below.

Temporary → Adjunct
Special → Contract or Continuing

For Tenure-Track positions with an Employment Category of ‘Regular’, the NTT Faculty Appt Type drop-down should be left blank.
2. Select Yes or No from the Is Background Check Required? drop-down. If you are not certain if one is required, add this detail in the 'Please Provide Any Background Check Detail' field below.

3. When complete, click Next to continue to the Background Check Requirements page.

Note: You can initially leave these fields blank. The Actual Start Date and Starting Annual Salary are completed AFTER the background check is successfully returned and AFTER the Offer Letter is negotiated and signed.

Note: If you are hiring a foreign national, please enter the Payroll Control Number (PCN) in the Background Check Detail box from the foreign tax office. (Details on page 3.)

If you are hiring a current CSU employee, please indicate so in this field.

Note: You may leave this blank.
Note: The selections on the Background Check Requirement page will pull over from the position description. No action is needed on this page. Be sure to note in the Please Provide Any Background Check Detail field if you notice that ‘Yes’ is incorrectly selected for any of the background check requests.

1. When ready, click Next.
On the Hiring Proposal Documents page, you may add documents such as budget authorization, recruitment documentation, Offer Letter, etc.

Please wait to attach the required, signed Offer Letter until AFTER the background check has been approved. An offer letter should not be sent to the proposed hire until after the individual has successfully passed a background check.

1. When ready, click Next to be taken to the Summary page.
Note: On the Hiring Proposal Summary page, review the hiring proposal and make any edits as needed.

1. When you are ready to move the hiring proposal forward to the Dean (Signature Authority), hover over the Take Action On Hiring Proposal button and select Submit to Dean (move to Dean).

2. In the pop-up box you may add any comments the Dean in the optional Comments box. When ready, click Submit.
