Step 3: Creating a Secondary Open Pool Posting to Hire out of the General Open Pool
Making a hire out of a General Open Pool

The third and final step of the Open Pool process is to create a Secondary Open Pool Posting from an approved position description. Once the Secondary Open Pool Posting has been approved internally (not posted online), OEO will copy over the current applicant list from your General Open Pool Posting to the Secondary Open Pool Posting, ‘capturing’ the available applicant pool at the time of the open vacancy.

Old Open Pool Process vs. New Open Pool Process:

- **Old**: Previously, the Secondary Open Pool Posting was utilized by departments to submit their finalist interview requests, hire request, as well as create the Hiring Proposal for their top candidate. Interviews could only be performed **AFTER** the Secondary Open Pool Posting had been approved and the current applicant pool was copied over.

- **New**: Now, departments have the ability to conduct finalist interviews, **PRIOR** to creating the Secondary Open Pool Posting, as finalist interviews no longer need to be requested through the TMS. In using this process, departments will be able to submit their hire request immediately upon OEO copying over applicants to the Secondary Open Pool. This new process eliminates the finalist interview approval point as well as removing the time delay for when a department can begin reviewing applications and scheduling interview as there is now no need to wait for the creation and approval of the Secondary Open Pool Posting. The Secondary Open Pool Posting should now only be used to submit the hire request.

The following guide will demonstrate the **New** Open Pool Process when creating a Secondary Open Pool Posting.

Creating a Secondary Open Pool Posting – Search Committee Page

Note: Use the Search Committee page to list the individual(s) who actively reviewed the applicants and conducted the interviews. Typically this is the PI of a lab. The selection made on this page will serve as a record to document who made the hiring decision.

Note: Under the new open pool process, applications are reviewed and interviews are conducted prior to creating a Secondary Open Pool Posting. Because of this, departments may request to add a search committee member to the General Open Pool Posting at any time. Adding an individual as a committee member on the General Open Pool will allow that person to review the applications to determine who to interview prior to the applicants being copied over to the Secondary Open Pool. This is an optional choice.

1. To add a committee member, select Add Existing User.
Note: Search for committee members using their email address. This guarantees that the correct committee member is being selected.

1. Click the Add Member button next to the name of the individual you wish to add. Then click Close.
1. Once you have added the search committee, click on References from the left side menu.

The Chair for this search MUST be Search Chair trained and be on the approved list on the OEO website. (Click here for the list)
Creating a Secondary Open Pool Posting – References Page

Note: On the References page, ensure you select the same minimum and maximum numbers of references selected on the General Open Pool Posting to ensure applications are copied over correctly.

1. Enter the same minimum and maximum numbers from the General Open Pool Posting.

2. When ready, click Next.
NOTE: Use the Posting Documents tab to upload the applicant screening tools for the pool. Applicant screening tools are pre-determined rating mechanisms utilized by a committee during the initial review of applications to determine which candidates are moving forward in the search process. These tools typically consist of the Minimum Qualifications screening form and an Applicant Rating Sheet (aka applicant screening form). These forms must be uploaded on this tab to complete the Secondary Open Pool Posting.

1. To upload a screening form, hover over the Actions button and select Upload New from the drop-down menu.
1. To upload a document, click Choose File. Please note, depending on your web browser, this button may be labeled as Browse.

2. Locate the file on your computer then select Open.

3. When ready, click Submit.
