How to Create an Internal Job Posting
How to Create and Post an Internal Job Posting

An Internal Job Posting is created/utilized when a department plans to run an internal search for a promotional opportunity, or when there is a new vacancy, and the department wishes to move a current employee into the vacant position. If approved by OEO, the department can run an internal, competitive search using the search committee model to promote an employee.

Internal Job Postings may be created by Initiators only.

Initiators may create internal job postings using approved and updated position descriptions, only.

The steps in the following slides explain how to create, prompt approval and post internal job postings.
1. Select the Applicant Tracking module by clicking the three dots in the top-left corner of the screen.

2. Select Initiator from the User Group drop-down menu.
1. Click on Postings in the menu across the top then select Admin Professional/Research Professional from the drop-down menu.
Create the Posting from an *Approved* Position Description

1. Once on the Postings page, click the + Create New Posting button and the ‘Create New’ box will appear.
Create Posting from *Approved* Position Description

1. Select Create from Position Description.

Note: Create from Position Type is only used when creating NEW Open Pools. See the Open Pools training guide for details.

Note: Create from Posting is only used when creating Open Pools from a PREVIOUSLY POSTED Open Pool. Selecting this option will clone and pull over all the information entered from a preexisting Open Pool posting. See the Open Pools training guide for details.
1. Choose your approved position description by selecting it from the list below or click the More Search Options button then type in the first 6 numbers of the position number into the Position Number field to search for the position description you wish to create the posting from.

Note: You may or may not choose to include the Version number after the position number (012345.0001). If you choose to exclude it, all versions of the position description will appear in the search. Be sure to select the correct, most up-to-date version.

Shortcut: Hover over the Actions dropdown and select Create From to start the posting from the selected position description.

2. To start the posting, click on the working title of the position description.
Selecting a Position to Create a Posting (from)

1. Review the approved position description to ensure that it is the correct version then click the Create Posting from this Position Description button in the top right corner of the screen.

Note: If the Create Posting from this Position Description button is missing, this means the position description is tied to another active posting. To unlock the position, the old posting will need to be moved into a final workflow state i.e., Closed Without Hire. Please reach out to OEO at oeo@colostate.edu if this button does not appear.
1. Fill out the ‘New Posting’ settings page.

Note: The Working Title will pull over from the approved position description. Please do not make any major edits to this field. You may fix spelling or grammatical mistakes or spell out abbreviations.

Note: These fields will auto populate with information from the position description. Please do not updated these if you have the ability to do so.
1. Select a New Job Alert Category.

Note: Internal job postings are approved internally and only posted to the CSU internal job board. Because of this, subscribers to New Job Alert emails will not receive notification of these internal postings but the system still requires the selection of a category.
1. Ensure the Accept online applications box is checked.

Note: For internal job postings, please do not update any of these fields.
2. Check the preferred method for receiving application materials. For internal searches, select Administrative Professionals – Standard Application Materials.

3. When ready, click Create New Posting to continue to the Posting Details tab.

Note: Please do not update the Special offline application instructions at this time.
Note: A lot of the information found on the Posting Details tab will pull over from the approved position description. Some fields may or may not be editable by you.
1. Select Internal Search from the Search Process Type drop-down menu.

Note: The Proposed Annual Salary Range will pull over from the approved position description. **Please do not alter this amount.** The department may also choose to add “Salary is commensurate with experience and qualifications”.

Note: The Position Location field will auto-populate with ‘Fort Collins, CO’. If applicable, you may update this field to accurately reflect the location of the position. Please ensure you use the ‘City, State Abbreviation’ format.

2. Select an option from the Work Location drop-down menu to indicate if the position qualifies for remote or hybrid work flexibility.

Note: The Promotional Announcement Additional Information field is only required for Promotional Announcement Postings.
1. Use this field to select the Hiring Authority for the search. Typically, the actual Hiring Authority is listed, as well as any individual who will be helping with the TMS workflow/processes. The Hiring Authority user role finalizes the hire by initiating a Hiring Proposal at the end of the search process.

2. Enter the position’s supervisor and their working title.

Note: The Description of Work Unit will pull over from the approved position description. You can edit this field if needed.

Note: These fields will pull over from the approved position description. If they are empty, ensure you are using an approved, completed position description to create the posting. You may make small edits to the position summary if you wish.
1. The Required and Preferred Job Qualifications will pull over from the approved position description. Please ensure you add ‘Must be a CSU employee’ to the Required Job Qualifications field. No other changes should be made to these two fields.

1. Select Yes or No from the Is this an Hourly position? drop-down field.

TIP: To format the qualifications with ‘bullets’, type * before each qualification.

Note: The Work Hours/Week will pull over from the approved position description.
1. Select Yes or No from the Research Professional Position drop-down menu.

2. The Full Consideration Date for internal searches must be a minimum of **two weekends** after the approval of the internal posting.

3. The Close Posting Date should match the Full Consideration date.

**Posting Number**

- **Number of Vacancies**
- **Desired Start Date**
- **Position End Date (if temporary)**
- **Open Posting Date**

**To ensure full consideration, applications must be received by 11:59pm (MT) on**

**Close Posting Date**

- **Close posting date is the date the posting is removed from the CSU Jobs website. For Standard searches the close posting date needs to be three weekends after the full consideration date. For Accelerated searches and Internal searches the close posting date needs to be two weekends after the full consideration date. Open Pool close posting date is the same as the full consideration date.**
1. The Special Instruction Summary allows the committee to communicate the specific details required in the application process to applicants i.e. documents that may be required to apply, information about references, etc. It will appear at the top of the job posting on the CSU Jobs Website. The language ‘Reference will not be contacted without prior notification of candidates’ should also be included. A great example of a special instruction summary is: “Interested applicants must submit a cover letter which addresses how professional experiences align with identified required and preferred qualifications of the position, a current resume, and the names, e-mail addresses, and telephone numbers of three (3) professional references. References will not be contacted without prior notification of candidates. If you have questions, please contact (search contact information)”.

2. Select Yes from the Internal Search Requested drop-down menu then fill in the Rationale for an Internal Search field. Information entered in this field should address why the department is requesting an internal search and speak to why they are not pursuing a standard, national search.

3. Delete the four auto populated venues in the Recruitment Plan field and replace them with the listserves/websites/ways the department plans to announce this broadly to their internal work force.
1. The Short Posting field allows OEO to review and approve a ‘bite-sized’ version of the posting announcement (perfect for a listserv announcement). The short posting should include the title of the position, the location, a brief summary of the position, the ‘Quick Link for Internal Postings’ so applicants know where to apply, and the shortened EO/EA/AA and background check language that is auto-populated. Please do not delete the EO/EA/AA auto populated language. This should appear at the bottom of every short posting.

Note: The language in these two fields will pull through to the job posting and will be viewable by applicants.

Note: The Pass Message and Fail Message fields contain the language applicants will see once they submit their application. If you choose to use disqualifying supplemental questions and an applicant ‘self-disqualifies’, they will receive the Fail Message. All other applicants will see the Pass Message.

Pass Message
Thank you for your interest in this position. The screening and selection process is currently underway and will continue until a successful candidate is chosen. Should review of your qualifications result in a decision to pursue your candidacy, you will be contacted.

Fail Message
Thank you for your interest in this position. Based on your responses to the questions on the employment application, you do not meet the minimum qualifications for this position. Please do not let this discourage you from applying for other positions at CSU that interest you.

AP/Faculty Short Posting

Note: Supplemental questions are similar to minimum qualification screening forms. It’s a way to determine if an applicant meets minimum qualifications by having them answer a set of questions when they are applying to the position. Certain answers to questions can be made ‘disqualifying’. This means that if an applicant selects a disqualifying answer, they will automatically self-disqualify from the pool. This automatically places them into the workflow state ‘System determined did not meet minimum qualifications’. You may choose to use either supplemental questions or a minimum qualification screening form or both.

1. To add a question, click on the Add a question button.
Posting – Adding Supplemental Questions

1. You may search for a preexisting question using the Category drop down menu, or Keyword search. Once you have found an appropriate question, check the box next to it and click the Submit button at the bottom.

2. If you are unable to find a suitable question, select Add a new one.
1. Use the Name field to name your question. You may also select a category to file it under.

2. Enter the supplemental question in the Question field. It should directly relate to one of your required qualifications. If the question is date sensitive, please be sure to include the referenced date. For example, the question shown here would need to include the anticipated start date as an applicant must have their Bachelor's degree prior to starting the position.

3. Select one of the two options under Possible Answers. Open Ended Answers allows applicants to type a personalized response. Predefined Answers gives the applicants set, multiple choices answers. Use Predefined Answers if you wish to create self-disqualifying questions.

4. Enter the possible answer choices to the question above.

5. Click Submit.
Posting – Adding Supplemental Questions (cont.)

1. To make a question required, mark the Required check box next to the question. Marking a question as required means applicants will need to answer this question before submitting their application.

2. To make a question disqualifying, click on the question.

3. In the drop-down, check the box next to the answer you would like to make disqualifying. If an applicant selects this answer, they will self-disqualify from the search and will automatically be placed into the inactive workflow state ‘System determined did not meet min quals’.

1. To add a search committee chair or member, click on the Add Existing User button.

Note: If you are unable to find a search committee member who is a current CSU employee using the Add Existing User lookup, please DO NOT create a new user account for this individual. All current CSU employees already have an existing TMS account. If they do not show up when searched, they may not have the Search Committee Member user role assigned to their profile. Please reach out to OEO at oeo@colesotate.edu or (970) 491-5836 should this situation arise.

1. In the pop up box, search for the committee member using their name, email, or department.

(ex: emilyrogers, erogers, emilyr, etc.) Once you have filled in the required fields, click the Add Member to Search Committee button.

Note: After you have created the guest user account, OEO will review and approve the request.

The Settings page will also need to be configured to accept letters of recommendation. Please see our Advanced Reference training guide.

3. The Last Day a Reference Provider Can Submit Reference Letter field allows the committee to select a date when references are no longer able to provide a letter of recommendation. Only use this field if you are soliciting letters of recommendation from references.

4. When ready, click Save & Continue.
NOTE: Use the Posting Documents tab to upload the applicant screening tools for the search. Applicant screening tools are pre-determined rating mechanisms utilized by a committee during the initial review of applications to determine which candidates are moving forward in the search process. These forms must be uploaded on this tab to complete the posting.

2. You may add relevant comments for the EO Coordinator in the optional Comments box then click Submit.

Note: Promotional Announcement (move to OEO Promotional Announcement Review) workflow should only be selected if you are creating a Promotional Announcement posting in the system. An internal search is different than a Promotional Announcement.
