NSH Posting FAQs

How long a posting is required?
- The vacancy must be posted for one day. Postings close at 11:59pm on identified date.

Are interviews required of all qualified applicants?
- There is no established ‘process’ for review of applicants; however, all qualified applicants must be considered.

I have an employee that returns after the required 4-month break in service, do I have to post the position?
- Not necessarily. If the position hasn’t changed (e.g., new responsibilities, new title, etc.) and the employee hasn’t left, there isn’t a ‘vacancy’ in the position and it does not have to be posted again.

When should I consider an external posting?
- The law only requires ‘announcing’ promotional opportunities to current employees (internal). An external posting can be used to solicit interest if there are no or limited known candidates.

Can an external candidate apply to an internal posting?
- Yes, a direct link to the posting can be provided. However, if the posting is internal, the candidate does not need to apply.
Promotion Definitions Under the EPEWA
Promotion:
A promotion occurs when an employee receives new or different authority, duties, opportunities, responsibilities, benefits, salary, or access to further advancement.
Promotional Announcement:  
A *promotional announcement* is the means by which promotions are announced to the university via a TMS posting which is placed on the internal job board for one day. If a current employee receives a promotion, a promotional announcement must be created.
Internal Search:

An **internal search** for a promotional opportunity is used when there is a **new vacancy**, and the department wishes to move (promote) a current employee into the vacant position.
Alternative Appointment Request:

An **Alternative Appointment Request (AAR)** seeks to hire an individual external or internal to CSU into a new vacancy without an open, competitive search process.
